

Flexibility

Flexible ducts to direct cold air to where it is needed.
Perfect for supplementary cooling of parts, processes and people.

4.5kW Cooling

Powerful 4.5kW cooling capability with
efficient and low power consumption.

Rugged Design

Ideal for all industrial and commercial applications.

**Compact cooling.
Proven reliability.
Ready to beat the heat.**

SPOT AIR-CONDITIONING

Fortunately, beauty is only skin deep 'cos under its steely blue exterior this little ripper's ticker packs a real punch. Known for its exceptional durability, gutsy performance and proven reliability, the MovinCool 155F Spot Cooler is compact and ready to take on a plethora of commercial and light industrial applications. Need to cool off? Roll in a 155F and take it easy.

MOVINCOOL 15SF PORTABLE SPOT COOLER

SPECIFICATIONS:

Cooling Capacity	4.5kW
Air Flow - Evaporator	800m ³ /hr
Max. Operating Temperature	40°C (50% RH)
Refrigerant	R410A
Refrigerant Charge	740 grams
Power Supply	240V
Power Consumption	1.5kW
Current Consumption	6.7A
Maximum Cold Duct Length	2x2m
Noise Level	64db
Weight	76kg
Dimensions (mm)	(W)490 x (D)672 x (H)1050

Safety Devices

- Compressor overload relay
- Fan motor protection
- Anti-freeze thermostat
- Drain switch
- Digital control panel
- Automatic restart (power interruption)
