

EC Fans

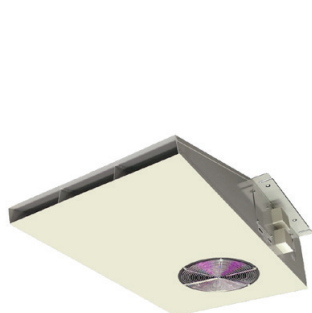

Pacific Ventilation offers a comprehensive range of green ventilation solutions. Our EC range is an environmentally friendly and more cost-effective solution to traditional AC technology.

Reliable, intelligent and able to integrate with most Building Management Systems our EC ventilation products also have a variety of compatible sensors and ancillary controls.

Our selection of EC fans combine highly efficient EC motors which include integrated speed control and motor protection. Contact us for product consultation.

Pacific Ventilation Mastering your air quality challenges.

EC fan applications include:

- Car parks
- Apartments
- Office buildings
- Commercial and home kitchen exhausts
- Classrooms
- Server rooms
- Control rooms
- Hospitals
